### USHUAIA To USHUAIA

Nov 30, 2021 | 11 Days | Voyage E4211130011

#### Voyage Highlights:

##### Total Eclipse –

This Total Solar Eclipse can only be seen from Antarctica. We will travel across the Drake Passage to reach an area north of the South Orkney Islands to hopefully observe the eclipse during the early morning.

##### Elephant Island, Antarctica –

Named for its former abundance of elephant seals, the island and its glaciers look uninviting, yet in 1916, when Ernest Shackleton's ship Endurance was crushed by ice in the Weddell Sea, his crew was stranded here for 137 days. Weddell seals, Chinstrap Penguins, and Macaroni Penguins can be found on the spit of land Shackleton's men named Point Wild. A solitary statue honours the Chilean captain Luis Pardo, who took the cutter Yelcho across the Drake Passage to rescue Shackleton's men. Depending on ice conditions, a Zodiac cruise and a landing might be possible.

##### Antarctic Peninsula, Antarctica –

We will explore the Antarctic Peninsula from the Silver Cloud, on Zodiac cruises and via landings to see seals and penguin colonies. This promontory of land is the furthest-north extension of mainland Antarctica. Your excursions will be expertly planned by your Captain and Expedition Leader according to weather and ice conditions. South Shetland Islands, Antarctica – Several landing sites and remains of whaling stations can be found in the South Shetland Islands. This grouping of islands is 75 miles north of the Antarctic Peninsula and holds sixteen research stations run by Argentina, the US, Chile, Spain and several other countries. Sites for your activities will be selected based on weather and ice conditions.

##### Drake Passage –

We will pass twice through the Drake Passage, a 600-mile wide expanse that marks the convergence of the Atlantic, Pacific and Southern Oceans. This is an excellent area for whale-watching and pelagic birding. Look for albatrosses and Southern Giant Petrels, as well as Cape Petrels, prions and storm-petrels.

##### Kayaking in Antarctica –

Silver Cloud offers the opportunity to kayak in a small group under the guidance of certified kayak instructors. These special excursions are a chance to appreciate the wilds of Antarctica in peaceful silence.

#### Wildlife Watch List:

- Gentoo, Chinstrap and Adelie Penguins
- Antarctic fur seals, Southern elephant seals, Weddell seals, crabeater seals and leopard seals
- Humpback whales, minke whales, sei whales, fin whales, pilot whales, orcas
- Birds of note: Blue-eyed Shag, Black-browed Albatross, Wandering Albatross, Southern Giant Petrel, Cape Petrel, Wilson's

*Expedition highlights and wildlife listed here are possible experiences only and cannot be guaranteed. Your Expedition Leader and Captain will work together to ensure opportunities for adventure and exploration are the best possible, taking into account the prevailing weather, wildlife activity and ice conditions. Expedition Team members scheduled for this voyage are subject to change or cancellation.*
